**Terms and Conditions :**

Acceptance of Purchase Order:

The vendor must acknowledge and accept the purchase order, including all terms and conditions, before proceeding with the order. Any additional or different terms proposed by the vendor are not valid unless agreed upon in writing.

**Delivery and Inspection:**

The vendor is responsible for delivering the goods by the specified date. Upon delivery, the buyer has the right to inspect the goods to ensure they meet the required specifications and quality standards. Any defective or non-conforming goods must be replaced or repaired at the vendor's expense.

**Payment Terms:**

Payment will be made within a specified period (e.g., 30 days) after receipt and acceptance of the goods. The purchase order should detail the payment method and any applicable discounts for early payment.

**Warranty and Support:**

The vendor must provide a warranty for the IT equipment and peripherals, covering defects in materials and workmanship for a specified period. Additionally, the vendor should offer technical support and maintenance services as needed.

### Confidentiality and Data Protection:

The vendor must ensure that any sensitive information or data shared during the procurement process is kept confidential and protected against unauthorized access or disclosure. This includes compliance with relevant data protection laws and regulations.
